## FAISALABAD BOARD 2013

## **General Science Class 9th**

Time: 20 Min

Objective Type(Group II)

Total Marks: 15

S#			ed answer		_
1	Questions	A	В	С	D
	Fats digest in.	Large intestine	Small intestine	Stomach	Buccal
2	The quantity of sodium in leaf tissues of plants is.	0.01 - 10%	10 - 15%	12 - 16%	16 - 20 %
3	The quantity of carbon dioxide in air is increased by.	Photosynthesis	Respiration	Burning	Evaporation
4	When was Dr. Munir Ahmad khan born?	1926	1937	1940	1945
5	According to Al-Beruni radius of earth is.	6328km	6338km	6358km	6368km
6	Chlorofluorocarbon creates the disposes of.	Land pollution	Air pollution	Chemical pollution	Water pollution
7	The thickness of atmosphere is.	200km	1000km	1200km	1600km
8	About Pakistani population depends on argiculture.	50%	60%	80%	90%
9	Spreading of germs is.	By air	By animal	By water	All of these
10	Mental disease is.	Neurosis	T.B.	Diphtheria	Cholera
11	Types of influenza virus are.	2	3	4	5
12	One gram carbohydrates provide energy . (K.Cal.)	4.1	4.5	5.1	5,5
13	Pancreas disposes hormone.	Insulin	Glucagon	Insulin & glucagon	Pepsin
14	Hormone which control invantary action.	Thyroxin	Epinep- hrene	Adrenal	Insulin
15	Blood groups discovered by.	Land Steiner	Thomson	Morgan	Fleming
-	<ul> <li>i) Write down the names of four Paki</li> <li>ii) Explain in two lines the subject Phy</li> </ul>			ie word scien	ce.

Write short Answers of any six particular (i) Write any two effects of green how (iii) What is meant by water pollution (v) Write two benefits of wild life. (vii) What is meant by sterilization? (ix) What is the importance of pure	sics. (fated to the Mass of Jabir Birds of Jabir Bi	iii) Define the uslim Scient in Hayan. What is interest on of four grant iii) Define grant iii) Define grant iii) Define grant iii) What is (ii) What is (iv) What is (vi) How deleast two ham life?	ists? hich book was of two rare gas ases present is ocesses? enome. meant by recy are endanger are fossil fuels oes Cholera's rmful effects has 8 mar	s translate ses. n air. ycling? lipids? red species pread? of smoking
4.	ii) Explain in two lines the subject Phy iv) Why is the practical chemistry don v) Write down the names of two book nto English and who translated? vi) What is the role of nitrogen with re vii) Write down the names of four rare viii) Write down a few benefits of chlori ix) Write down the names and percent viii) Write down the names and percent viii) Write down the names and percent viii) What is the difference between ana ii) Name the fruits which have vitamin iv) What is meant by transgenic organ  (vi) What is the role of iron in the book (vii) Which diseases may attack on don (viii) Write two sources of protein. Write short Answers of any six po (i) Write any two effects of green ho (iii) What is meant by water pollution (v) Write two benefits of wild life. (vii) What is meant by sterilization? (ix) What is the importance of pure we subject Attempet any three Questi (a) Write note on water soluble vitam (b) Describe different stages in huma (a) Describe the different component (b) What is genetic engineering? How livestock?	sics. (ated to the Mass of Jabir Birds of C. (at a C.	iii) Define the uslim Scient in Hayan. What is interest on of four grantabolism profile in How case (ii) What is (iv) What is (vi) How deleast two has a life?  I question in their function improving	ists? hich book was of two rare gas ases present is ocesses? enome, meant by recy are endanger are fossil fuels oes Cholera's rmful effects  has 8 mar ions, agriculture a	s translate ses. n air. ycling? lipids? red species pread? of smoking
4.	ii) Explain in two lines the subject Phy iv) Why is the practical chemistry don v) Write down the names of two book nto English and who translated? vi) What is the role of nitrogen with re vii) Write down the names of four rare viii) Write down a few benefits of chlori ix) Write down the names and percent Vrite short Answers of any six par i) What is the difference between ana ii) Name the fruits which have vitamin iv) What is meant by transgenic organ  (vi) What is the role of iron in the book (vii) Which diseases may attack on dog (viii) Write two sources of protein. Write short Answers of any six par (i) Write any two effects of green hos (iii) What is meant by water pollution (v) Write two benefits of wild life. (vii) What is meant by sterilization? (ix) What is the importance of pure we subject Attempet any three Questi (a) Write note on water soluble vitan (b) Describe different stages in huma (a) Describe the different component (b) What is genetic engineering? How	sics. (ated to the Mass of Jabir Birds of C. (at ater in human of the Constant of C. (viii) Write at ater in human of the Constant of C. (viii) Write at a ter in human of the Constant of C. (viii) Write at a ter in human of the Constant of Con	iii) Define the uslim Scient in Hayan. What is interest on of four grantabolism profile iii) Define grantabolism profile iii) Define grantabolism profile iii) What is (ii) What is (iii) What is (iv) What is (vi) How deleast two ham life?  1-11) The question improving their function improving their function improving the im	ists? hich book was of two rare gas ases present is ocesses? enome, meant by recy are endanger are fossil fuels oes Cholera's rmful effects  has 8 mar ions, agriculture a	s translate ses. n air. ycling? lipids? red species pread? of smoking

What is the role of endocrine glands in our body?

Explain the effects of rising population on environment.

Write down the harmful effects of smoking.

(b) Write down the measures to reduce pollution.

Write a note on narcotics.

8.

9.
